

The Power of Partnership: Sharing Resources with Neighboring Systems

Cazadero, CA | July 12, 2018 | 1:00PM-4:00PM

Cazadero Volunteer Fire Department, 5980 Cazadero Hwy, Cazadero, CA 95421

About this Complimentary Workshop:

Running a small system can be challenging. Along with meeting regulatory obligations and satisfying customer expectations, you may have issues with aging infrastructure, lack of personnel, and limited financial resources. Furthermore, small systems often cost more to operate per capita than large systems because of economy of scale. This can further complicate operations.

One strategy to address these challenges is to work with other utilities. In this workshop, we will discuss various approaches to collaboration, including:

- Informal information sharing
- Sharing personnel
- Leveraging shared purchasing power
- Helping maintain regulatory compliance

CEUs: This workshop has been submitted to the state for CEUs.

Trainer: Heather Himmelberger - *Director*, Southwest Environmental Finance Center
